<b>Model Number</b>	WHL-25A

### WHL-25A desktop electric constant temperature drying oven

#### Features:

1. The natural convection circulation mode of hot air in the product working room.
2. The digital tube displays the microcomputer intelligent PID temperature controller.
3. New anti-scalding handles.

#### Technical Parameters:

Operating temperature range: RT+10-300°C

Temperature resolution: 0.1 °C

Temperature fluctuation: ±1 °C

Temperature distribution accuracy: ±3.5%

Studio: Model with B: mirror stainless steel studio; no B in model: high strength galvanized sheet

Housing: cold rolled steel plate, surface electrostatic spraying

Insulation: High quality rock wool board (with CE certification)

Heater: Nichrome heating wire

Rated power: 0.6kW

Vent hole: φ28mm top (with test hole function)

Temperature control mode: Dual temperature segment intelligent PID

Temperature setting method: Touch type button setting

Temperature indication method: Measuring temperature: four digital tube upper row display; setting temperature: four digital tube lower row display

Timer: 0-9999 minutes (with timing wait function)

Running function: fixed value running, timed running, automatic stop

Additional functions: sensor deviation correction, temperature overshoot self-tuning, internal parameter lock, power-down parameter memory

Sensor: Type K
